

New Arrival!

Excitingly Powerful A 123 PRISMATIC CELLS!!

20Ah/15Ah Automotive Class Lithium Ion Cell: A123Systems recognizes that the impending transportation revolution requires industry-specific solutions. To that end, A123Systemes has developed the high energy 20Ah/15Ah prismatic cell designed for PHEV, EV, and ReEV applications, offering very low cost per Watt-hour.

The 20Ah /15Ah use the new HD electrode design, offering even higher capacity than the traditional ANR26650M1 design.

Model: AHP 70165227
Capacity: 20Ah
Size: 7.0X 166X227mm
Weight: 480g
Applications: PHEV and EV

Model: AHP 68150211
Capacity: 15Ah
Size: 6.8X 150X211mm
Weight: 400g
